

THE OATH OF POSITIVITY

©1977 By J. Morris Anderson, Philadelphia PA

As Recited by Pearl Bailey, at the 1977 Miss Black America TV Special, live on NBC

My actions and my attitudes will always reflect positivity in my mind.

My physical appearance will always reveal my positive mental attitude toward life.

My head held-high will indicate the mental and spiritual strength that lives within me.

My straight, cheerful manner of walking will exemplify the positive direction my life has taken.

My eloquent manner of talking will always relate the positive mental, spiritual and physical forces that reside within me.

My illustrious smile will always express the pleasure I receive from living.

My illustrious smile will always indicate the self-confidence and positive spirits inside me.

Therefore...

I CAN perform any task;

I CAN sell any product;

I CAN cause any relationship to thrive;

I CAN overcome any obstacle;

I CAN accomplish any objective.

I AM a positive mental, spiritual and physical person.

I AM spiritually capable of succeeding.

I CAN successfully compete on any mental level.

I WILL succeed on any physical level of activity in which I engage.
